I give permission for image, or videos taken of my child, use of the facilities or equipment, or participation in any way may be used in any legal manner without payment.

Parents Signature _____ Date _____

Junior Development Program

Windward Lake Club's Junior Development Pathway's goal is to produce well-rounded and educated athletes that are prepared for college and after. The programs offer a systematic and progressive approach to tennis excellence. Structured around effective growth and development principles, players move based on their capabilities, improvement and commitment. The programs utilize low-compression to yellow balls, right-sized racquets and appropriate size courts depending on the player's age and ability. Every level of the program has a simple set of objectives, and our pros make your child achieving each goal their priority. As a parent, you can trust that we will apprise you of your child's progress as they advance through the Junior Development Pathway. We can address a student's "entire game" with a combination of drilling, strategy, mental preparedness, patterns of play, point set up and match play.

High Performance Program (invitation only) High Performance Academy recognizes the need for intense training that is conducive to every individual's progress. To ensure a high level of technical development, we utilize clay court training to promote good footwork, sound tactics and a disciplined approach to playing extended points. In addition to good court performance, we also encourage students to concentrate on their education, develop good character, sportsmanship, and overall integrity. Windward Lake Club's goal is to produce well-rounded and educated athletes that are prepared for college and after. The High Performance Academy is an invitation-only program that runs year-round. By limiting enrollment, we can ensure a more personal atmosphere and provide more one-on-one time for each player enrolled in the Academy. It's our way of affording each student the individual time necessary for his or her ultimate success.

Yellow Ball Program (Age 10 – 18 years Tournament Prep) This program is for the advanced tennis player. All participants are grouped according to age and skill ability. The main goal of this program is to provide solid tennis instruction in a challenging environment. The program is designed for students who are playing in upcoming middle, high school and college prep tennis and local tournaments.

Green Ball Program (Ages 12 and under Tournament Prep) This program is an innovative 12-and-under team concept that will group students who have the desire to pursue competitive tennis tournaments and match play.

Orange Ball Program (Ages 12 and under Tournament Prep) This program is an innovative 10-and-under team concept that will group students who have the desire to pursue competitive tennis tournaments and match play.

Red Ball Program (Ages 4-7) This program is a fantastic teaching program that uses child sized racquets and nets to inspire children aged 4, 5, 6 and 7 years to get active and to learn to play tennis...but the real secret of Tiny Tots is that it is great FUN!
